

# Cleaning to Create Safe & Healthier Office Buildings

## What Jani-King Can Offer Your Business!

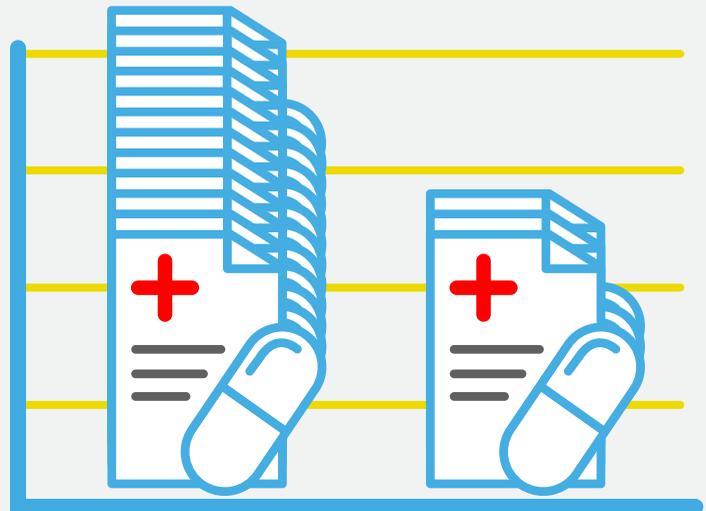

### »»» Increased Productivity & Motivation

Jani-King can increase your company's productivity by helping to keep your employees healthy and on the job. Having a well-maintained office space shows your employees you care about the office and their work environment. A pleasant place to work makes everyone proud and helps to create a positive environment for all.

### Reduced Sick Days <<<<

It should come as no surprise that proper cleanliness will reduce employee illness. As we have learned from the COVID-19 pandemic, illnesses spread rapidly and impact our health. Germs collect on our desks, chairs, keyboards, doorknobs, bathrooms, break rooms and in many other places. Keeping your business cleaned regularly creates a healthy and safe environment.

For over 50 years, Jani-King has earned our trusted reputation by providing results. No matter what your needs may be, we can deliver a commercial cleaning program that provides consistent, quality cleaning and disinfecting that enhances the value of your workplace.
